EXPERIENCE

Software Developer   **(July 2023) – (Jan 2024)**
Fusion Computing - 100 King St W Suite #5700, Toronto, ON M5X 1C7.

- Focusing on delivering high quality software according to customer requirement.
- Utilize technology to optimize to solve bugs for client software.
- Prioritized customer satisfaction through active feedback, resulting in increased positive reviews and enhanced loyalty toward company.
- Fostered positive team culture emphasizing open communication and ensuring an efficient development team.

EDUCATION

Mobile Application Development   **(July 2023) – (Jan 2024)**
St. Clair College, Windsor

- This advanced diploma program focuses on developing mobile applications for smartphones, tablets, and the web. Students will learn app development for major platforms, object-oriented programming, cross-platform development (web and native), user interface design, database fundamentals, systems development, project management, and will be introduced to game development techniques.

- Achieved a high GPA of 3.5 out of 4 in semester 2, demonstrating academic excellence. Successfully completed key projects, including the Yatzy project and a Capstone project, which indicate my strong technical skills and management.
